Plastic Seal Tool

10111TP50

Installing a New Seal:
When installing a new gladhand seal if center hole appears elongated & cannot move, use the Tectran Seal Tool to help seat your seal properly into the groove of your gladhand.

Removing an Old Seal:
Insert Tool (or other device) into the inside diameter of seal. Firmly pull upward to complete extraction of the seal.

Gladhand Lock

- This economical gladhand lock is very effective in preventing the unwanted connection of tractor trailers
- Great for protecting out of service units
- Each lock is supplied with 2 keys
- Not intended to be an effective anti-theft device
