

FLITZ

The Fastest & Easiest Way to Restore Clarity to your Plastic Headlight Lenses & Light Bars.

Poor working headlamps caused more accidents and fatalities than brake or fifth wheel malfunctions during this test study.

There are numerous lamp/reflector violations that a DOT officer could use instead of or additionally that follow the violation referenced below. So, it is more important to keep the headlamps clean than to keep the brakes and the fifth wheel in good operational condition on this scale. Even hazmat and explosives violations are not as severe.

This table reflects the Federal Motor Vehicle Safety Standards of the Federal Motor Carrier Safety Administration (FMCSA), the Federal Motor Carrier Safety Regulations (FMCSRs) and the National Highway Traffic Safety Administration:

Section	Violation	Violation Group Description	Violation Severity 1 to 10	Violation in the DSMS
392.33	Operating CMV with lamps/reflectors obscured	Lighting	6	Y
393.40	Inadequate brake system on a CMV	Brakes, All Others	4	Y
393.70 (b)(2)	Defective fifth wheel locking mechanism	Coupling Devices	3	Y

These violations are recorded at the Federal Motor Carrier Safety Administration and a poor rating will take a carrier or driver from "Continue to Operate" to "Unfit". These violations stay on your record for 2 years and if found "unfit" the carrier or driver may not be able to continue to operate until the violations are cleared.

Headlight Restoration Kits

Enough Product to do up to **10+** Headlights!

The fastest way to restore like-new clarity to plastic. **Guaranteed!**

FLITZ
#HR 09047
\$7.75

\$99.95

Protect after you Flitz!

Universal Headlight Shield

Keep your headlights like new!

- Extend the life of your headlights with Husky Shield Headlite Guard. Our high impact resistant clear film defends your headlights from the sandblasting effects of sand, rock, salt and road debris.
- Keep your headlights from becoming hazy and yellow. Built-in UV inhibitors help your headlights remain clear by minimizing the oxidation caused by UV sunlight.
- Easy to install. Designed specifically for the do-it-yourselfer each pre-cut kit includes all the tools and instructions necessary for a smooth installation. Vehicle specific with no cutting or trimming required.
- Eliminate the expense of headlight replacement. Today's acrylic and polycarbonate headlights can cost in excess of \$400 to replace. By installing our Husky Shield Headlite Guard you will extend the life of your headlights, saving you hundreds of dollars in replacement costs.
- Useful on all vehicles – not just new. Perfect for applying after a headlight restoration or polishing kit.

24"x36" #07987 \$27.25
