

BATTERIES

INTIMIDATOR AGM

The Deka Intimidator is specially designed for engine starting and accessory loads typical of today's cars and trucks. Its leakproof design enables many installation options, while providing added power, protection and reliable service for expensive equipment.

Designed to resist life-robbing vibration, the Deka Intimidator's tight-pack plate and separator construction is ideal for the daily demands of work truck and equipment service. The Deka Intimidator's maintenance-free design provides a secure fit; with a leakproof design that resists corrosion for longer service life.

DEKA AUTOMOTIVE & LIGHT TRUCK

Deka's complete line of lead-acid batteries for passenger cars, light trucks, and vans are made of the highest quality workmanship and materials. We carry sizes and capacities for virtually any vehicle

and vintage. State-of-the-art calcium maintenance-free design delivers the lowest gassing rates, longest life, and highest performance.

DEKA RV/MARINE MASTER

No matter what the application... no matter what the power demand...Deka has the correct RV/Marine battery for rigorous RV/Marine service. From pounding vibration, long cranking

due to stubborn engine starting, heavy horse power and auxiliary loads, to long hours of trolling without recharge, Deka RV/Marine batteries deliver.

Available in dual purpose or deep cycle Deka RV/Marine Master flooded; there's a Deka battery for virtually every RV and marine application.
